

Fabrics for commercial use

... our experience for you

Contract projects are highly complex. A smooth collaboration between suppliers, tradespeople and other project participants is essential. We know this from years of experience.

We pay great attention to the presentation of our collections in themed books and folders. Our colour schemes are a source of ideas for interior designers.

Our sales staff are happy to assist our partners locally and provide support from the design phase through to the final realisation. They possess in-depth product knowledge and offer comprehensive advice.

We do everything we can to deliver the best quality on time. Our storage capacity and our know-how regarding logistics are extensive and are constantly being developed.

Please find our reference projects at <http://www.fine.at/en/referenzen.html>
